

# WANT TO MAKE YOUR OWN PAW PATROLLER?

**FOLLOW THIS GUIDE TO BUILD YOUR MIGHTY PUP USING ITEMS AT HOME!**

## **FOR THIS ACTIVITY YOU WILL NEED:**

- A printer to print the pages
- Scissors to cut the shapes
- Tape or glue to adhere the pieces

## **STEP 1:**

Have a grown-up cut out the face, snout, puppet handles, mask, and the body.

## **STEP 2:**

Using the fold lines on the face, fold the middle line away from you, and the top and bottom lines toward you to make the mouth mechanism.

## **STEP 3:**

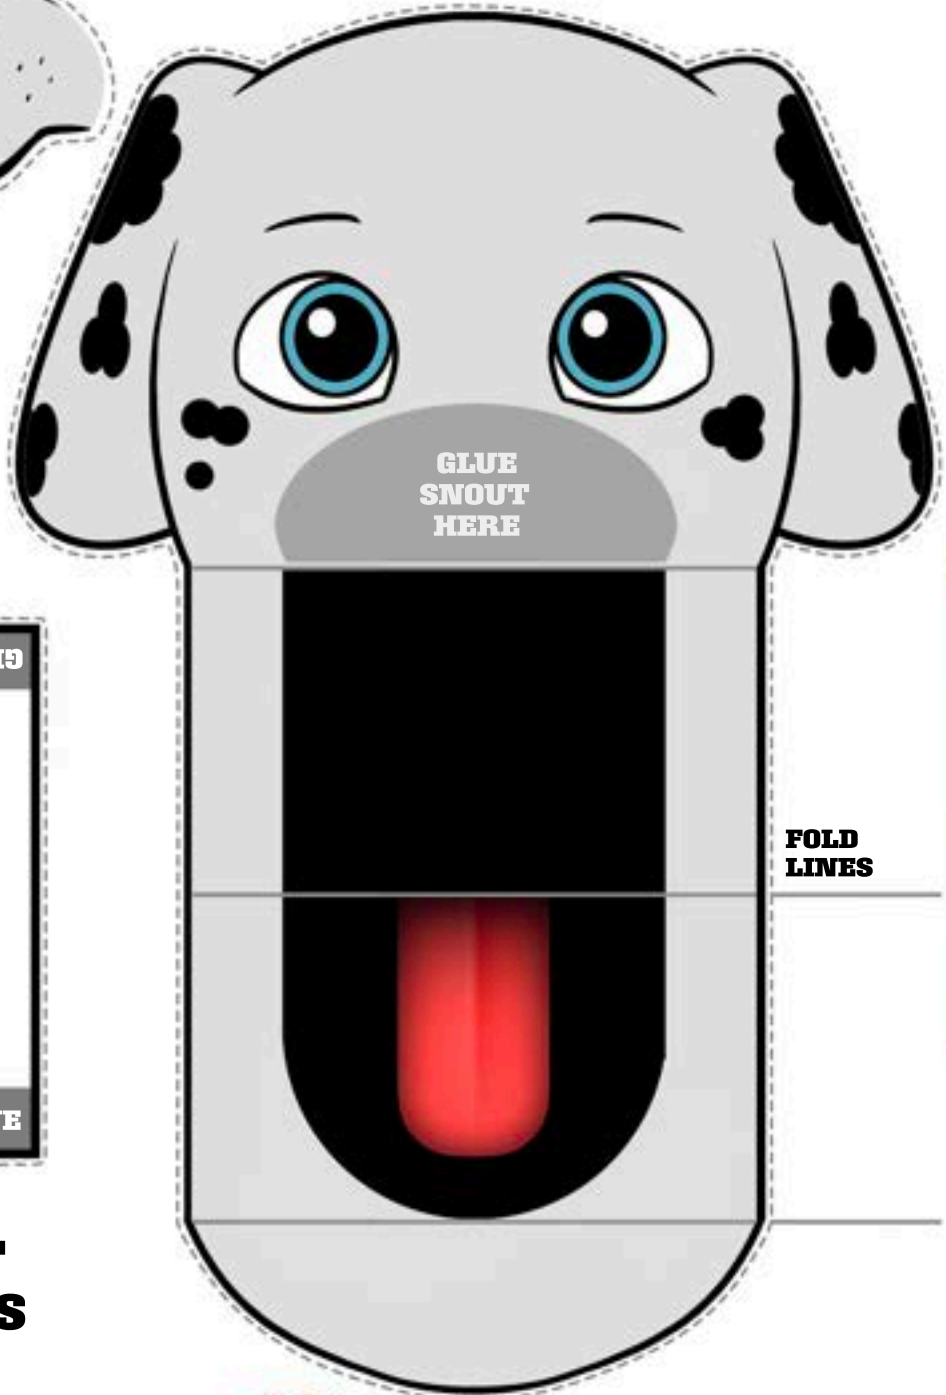

Using glue or tape, adhere the snout and body where indicated, and the puppet handles on the back of the face. Use double-sided tape for the mask to keep it removable.
